Tecnológico de Costa Rica

Cartago, Costa Rica

Expected graduation date: June, 2024

- Bachelor's Degree, Computer Science
 - Specialisation: Web development
 - Completed a comprehensive curriculum spanning from low-level programming to cutting-edge technologies.
 - Successfully executed multiple tasks and projects, employing technologies like Node.js.
 - Earned honours scholarship for excellence in multiple semesters.

Colegio Técnico Don Bosco

San José, Costa Rica

February 2014 – December 2019

- High school technician in computer science
 - Successfully completed basic education.
 - Developed skills in programming and computer systems.

PROFESSIONAL EXPERIENCE

Ministerio de Educación Pública (MEP)

San José, Costa Rica

October 2019 – December 2019

- *Intern, Department of Quality Assessment*
 - Independently developed a system using ASP.NET, enabling individuals to rate teacher performance during national standardised tests, a critical requirement for high school graduation.
 - Collaborated with stakeholders to gather project requirements.
 - Implemented the system to ensure user-friendly functionality and efficient data management.
 - Conducted rigorous testing, debugging, and troubleshooting to ensure seamless operation.
 - Provided training sessions for end-users and the rest of the department in charge of the project, resulting in positive feedback for streamlining the rating process, enhancing data accuracy, and improving overall efficiency.
